DIRECTORS FOR NEW CENTERVILLE GRAVEL PLANT ANNOUNCED

Construction Work Ordered To Completion Before January 1

The first piece of equipment arrived at the Pacific Rock and Gravel company's property in Centerville, Sunday. The locomotive crane was unloaded and assembled for the purpose of digging the foundation of the $250,000 plant.

Construction work was ordered August 22 at a meeting of the board of directors and work will now be carried to completion. The first work to be done by the crane is to dig foundations 27 feet deep, 40 feet wide, and 138 feet long.

The board of directors for the new plant announced today are: President, Lee A. Frontz, of Niles; vice-president and general manager, Martin Uldall, of San Francisco, president of Standard Gypsum company; E. W. Burr, member of the advisory board of the Bank of Italy at Hayward; F. A. MacHugh, of Oakland, who aranged the financing; P. H. Hoare, of Hayward, road contractor and rancher; F. E. Leach, of Oakland, formerly of the Eden Creamery at Hayward; and Judge C. H. Sooy, of San Francisco, director of the Pacific National Bank.

Fred J. Bodinson, president of the Bodinson Manufacturing company, who has the contract for the new gravel plant, announces that it will be in operation before January 1.

Mr. Frontz states that local help will be used in construction work so far as contractors can avail themselves. All employees for the plant itself when in operation have already been employed as only skilled help will be used.

Financing is about concluded with a number of representative material users and business men of San Francisco, Oakland, as well as the local investors.

LESTER DUFFY IS THIRD PARTY IN CUT-IN COLLISION

While driving to Santa Cruz last week-end Lester Duffy was the innocent third party in a cut-in accident.

P. A. Ross, of Weed, driving a Buick, passed Duffy, clearing the latter's car but hitting a Ford driven by J. T. Logan, of Santa Cruz, who was coming out of the city towards them. Ross' car locked with Logan's, tearing off the front fender and throwing the inside front tire, swinging the car across the road into Duffy's. Duffy's car was badly smashed from the impact.

Logan stated his intention of charging Ross with reckless driving. Though his car suffered damages, Duffy is merely a witness to the accident.

LOCAL CHAMBER TO SEND LETTER OF APRECIATION TO S. P.

It was decided at the Chamber of Commerce meeting Tuesday that a letter of commendation should be sent to the Southern Pacific company for the installing of the two wig-wags at the crossing near Niles.

It was also suggested that the Western Pacific company should be asked to fix their crossing just outside of town.

GAS TO BE PUT IN NEWARK, ALVARADO AS NEXT PROJECT

P. G. E. Company Sponsors Cooking School Next Wednesday, Thursday

Gas will be turned on in the main street of Centerville the last of this week. The Pacific Gas and Electric company will then proceed to the projects in Newark and Alvarado, according to announcement made here yesterday.

The residents of Niles are unaware of the engineering feats accomplished here when the gas mains were laid under the bridge. Eight tons of four-inch steel pipe were used in the bridge work.

Residents of Irvington have submitted a petition to the Gas company to provide gas to that community while the work is being done in the Township. R. J. Wright, president of the Irvington Chamber of Commerce, is head of the petitioning campaign. The gas company is reported to be making a survey of the town to ascertain the cost of complying with the demand.

The Pacific Gas and Electric company has announced that a cooking school will be held in Centerville next Wednesday and Thursday. Mrs. Farnsworth will conduct the classes.

Those who wish to have definite questions answered during the course of instruction may submit them to Miss Frances Ayres at the local office.

Former Niles Girl Weds In Berkeley

The wedding of Miss Myrtle D. Roland, of Exeter, formerly of Niles, and Gustave Ortel, of Newark, New Jersey, took place Saturday afternoon at the Lutheran Church in Berkeley. Only relatives of the young couple attended the ceremony.

The bride was attended by her twin sister, Miss Mildred Roland, and a brother, Herbert C. Roland, Jr., was best man. A reception and dinner in the Rosette Room of the Hotel Leamington followed the wedding.

The bride is the daughter of Mr. and Mrs. H. C. Roland, formerly of Niles, now living in Exeter, where Mr Roland is roadmaster of the Southern Pacific.

Mr. and Mrs Ortel will spend their honeymoon in the northern part of the state and on their return will make their home in Berkeley.

NEWARK CLUB SETS SEPTEMBER 7 AS DATE FOR PLAY

'Nancy Anna Brown's Folks' Will Be Presented by Dramatic Group

By JULIA RUSCHIN

The Newark Dramatic Club has set September 7 as the date for presenting the play "Nancy Anna Brown's Folks" for the benefit of the Newark Bluebird club. Frank Jones will direct the production.

The club has been rehearsing for weeks and the comedy is expected to be a marked success. The story centers around Nancy Anna Brown, who having become dissatisfied with conditions at home, leaves to join a stock company playing at the Grand Theatre in Brooklyn. She takes the name of Rosalind Raylor.

She becomes leading lady of the company and writes her parents of her sudden rise to fame. They immediately come to visit her to tell her that her uncle has died and left them a fortune. Rosalind, surprised at their coming, and fearing that if it is found out that they are poor and ignorant she will lose her finance, Cartwright's millions, denies her folks and gets her maid, Willa Dean to take her place as Nancy.

Her father, hurt and angry, tells her that she is no longer a daughter of his. When she finds out of her parents' wealth, Rosalind wishes to go back to them and to Barry whom she really loves but he has fallen in love with Willa.

Rosalind's father, in order to test her, tells her that there is no money and that they are going back to the farm. Rosalind refuses to accompany them and leaves to marry Cartwright.

Willa takes Nancy's place and goes to Europe with the Browns. A year passes. Cartwright turns out to be a gambler and a ne'er-do-well and is killed. Rosalind is found on the streets with her small baby, penniless and starving. The rest of the act shows her reconciliation with her family and friends.

The cast in order of their appearance is as follows:

Pete ..... Louis Ruschin Jr.
Dave ..... Hugh.. Steinhoff
Pa Brown ..... Frank Jones
Ma Brown ..... Ruth Townsend
Nick ..... James Collins
Rod ..... Maurice Silva
Connie ..... Kathleen Pope
Val ..... William Lazzorini
Juliet ..... Lucille Knobles
Denny ..... Frank Veit
Inez ..... Hazel Hempleman
Barry ..... George Kommes
Willa ..... Laura Dutra
Rosalind ..... Adele Steinhoff

This play is the best production ever attempted by the club. It is realistic and worthwhile for the moral it teaches. A large crowd is expected to attend the performance.

Mrs. A. L. Juhl, nurse in charge of the first aid station of the Schukl cannery, is suffering from a case of blood poisoning in her right hand. She was taken to the Hayward General Hospital. The infection set in after she had treated one of the employees for a similar case.

MUSIC STUDY BEING STRESSED AT HIGH SCHOOL THIS YEAR

Many Activities Will Be Scheduled for Band During Fall

Music lovers will be pleased to note that much time is being afforded orchestral study in Washington Union High School this fall. Over 80 students have already enrolled for places in the band or orchestra.

The course has been so reorganized this year as to give the student a working knowledge of all standard instruments with a mastery of at least one as well as a training in conducting or leading a musical group. There will be a trip to San Jose for the students to study the music departments of the schools there with an opportunity to take in special concerts and demonstration of marching by the 96-piece San Jose High School Band. This band under the direction of Byron R. Snow placed fourth in concert and first in marching in the Northern California State Band contest last spring.

This increase in musical activities will be made possible through daily one-hour reahearsals instead of the customary 40-minute weekly practices of previous years.

Other activities planned for the band this term are: Local concerts in the various towns of the district and music and marching stunts during atheletic events.

It is planned to enter the band in the Northern California State Band contest in San Francisco in May 1929.

Caton Souza Receives Final Tribute Tuesday

Final tribute was paid Caton Souza at the funeral services held Tuesday morning at the home of his daughter, Mrs. Mary Mendoza. Souza was a retired farmer of this community.

Mass was said at the Corpus Christi Church and interment was in the Mission San Jose cemetery. Six grandsons acted as pallbearers.

Mr. Souza was born in Portugal 76 years ago and has been a resident of this community for the past 37. He leaves three daughters, Mrs. Mendoza, Mrs. Anna Silva, of Mission San Jose, and Mrs. Marianna Costa, of Milpitas. He was a member of the I. D. E. S. and of the U. P. E. C. at Mission San Jose Many friends mourn his passing away.

Mayor of Walnut Creek to Talk Here

Eugene B. Anderson, mayor of Walnut Creek, will speak at the weekly luncheon meeting of the Niles Chamber of Commerce on Tuesday. Mayor Anderson will take up the problem of incorporation.

Dr. Charles H. Law and William Kirk make up the reception and program committee for the coming meeting.

ATTEND MASONIC LODGE MEETING IN BERKELEY

Mrs. F. Mitte, Mrs. H. M. Kibby, and Mr. and Mrs. E. Martin had the pleasure of attending the meeting at the Masonic Temple in Berkeley recently when the new A. E. S. chapter, "Rosa M. Shattuck" was instituted. Worthy Grand Matron Gladys F. Pierce and Worthy Grand Patron Henry F. Pernan presided.

Word of Appreciation

I wish to thank the voters of Washington Township for the confidence which they expressed in my record as supervisor of the First District in the Primary elections held Tuesday. I greatly appreciate the hearty support and cooperation shown at that time.

(Signed)

RICHMOND RE-NOMINATED BY STAGGERING VOTE; CHRISTIAN ENDORSED

NATIVE SONS HOLD PICNIC AT MISSION

PIEDMONT, NILES PARLORS SPONSOR CELEBRATION SUNDAY

The Picnic held Sunday by the Native Sons on the grounds of Thomas H. Witherly, of Mission San Jose, was a celebration in honor of the Spanish California families of northern and central California.

The affair was sponsored by Piedmont Parlor, of Oakland, and Niles Parlor N. S. G. W. It was under the direction of H. Raymond Hall, of Oakland, and George L. Donovan, of Niles.

Judge Lincoln S. Church, of Oakland, gave the opening address. He brought out some of the historical high lights of the mission saying that "the padres knew of the gold in the Sierras before it was discovered by John Marshall in 1849. Sergeant Pedro Amador as early as 1820 took several hundred Indians with him from Mission San Jose each year to Amador County and mined gold, which when brought back to the Mission was turned into chalices and other church vessels by the padres."

Wealth of untold value was thus brought to Mission San Jose and the story is told by some of the descendants of the Higuera family that when the Mexican officials began to loot the missions, Padre Duran buried all of this treasure on what is now the Witherly ranch at Mission San Jose.

It is hoped that this celebration will mark the beginning of an annual homecoming at this historical spot of all the remaining Spanish California families in this part of the state.

Among the old families honored at the picnic were: Moreno, of Monterey, Galino, of Oakland, Peralta, of Oakland, Castro, of Oakland, De Soto, of Martinez, Heguera, of Mission San Jose, Alvarado, of Richmond, Rodriquez, of Monterey, Bomal, of Pleasanton, Gonzales, of San Francisco, Amador, of San Ramon, and Chivarri, of Milpitas.

Charles Walker Dies At Home In Decoto

Following a few days illness of pneumonia, Charles A. Walker died last week at his home in Decoto. Funeral ceremonies were conducted by Masons from the home at Decoto and the lodge at Centerville. Rev. F. B. Hartman was in charge of the services.

Walker was a Mason and a member of the Modern Woodmen. He is a native of Tennessee and has resided on a farm near Decoto for three and one-half years.

He is survived by his wife, Mrs. Emily Walker; three sons, Willard and William Walker, of Decoto, and Morris Walker, of Valle Vista; and four daughters, Mrs. Elizabeth Brewer, of Galt, Mrs. Cora Wright, of Kansas, Mrs. Laura Meadows, of West Virginia, and Miss Ola Walker, of Decoto.

CANNERY PREPARES FOR TOMATO RUN TO START SOON

It has been announced that the Decoto cannery is preparing for its tomato run within two weeks. The machinery and equipment are being overhauled in preparation.

Favorable weather has been responsible for a bumper crop in this section. About half the crop will be handled in the Washington Township canneries while a large percentage of the remainder will be shipped to Oakland for making catsup.

Bowles Carries Niles By Good Majority—Senior Senator Victorious

Ralph V. Richmond was re-elected Supervisor of the First District on Tuesday's ballot by a decisive margin. In Washington township alone, the local man polled an overwhelming majority.

Richmond supporters in this locality showed unusual enthusiasm in this particular contest. Meetings have been held during the past weeks in the various towns and each vied with the other in hearty approval. Monday night, excitement ran high in the final rally held in Livermore. A large number of township cars met in Niles to parade to that town to take part in the last Richmond meet before election.

This confidence displayed by the citizens merited a vote of 1978 for Richmond as against 924 for Wells in the township and 3307 for Richmond with 2073 for Lee Wells in the entire Alameda county.

Incumbent officials throughout the county swept over their opponents in the election. Senator E. H. Christian polled 6951 votes to 2569 for Calvert Bowles. Although Christian led in Washington township, Niles supported Bowles giving him 226 votes as against his opponent's 212.

The Democratic nomination was won by Henry E. Harwood, who will oppose Senator Christian at the November election.

The township, county, as well as the rest of the state gave United States Senator Hiram W. Johnson an overwhelming vote for the Republican nomination over Charles H. Randall, of Los Angeles. In the county he received 45,797 as against Randall's 9560; in the township the ballot showed 1606—274.

His home county boosted Judge Joseph S. Koford with a lead of nearly four to one in the contest for presiding justice of the first district court of appeal. He therefore was able to overcome the heavy vote of Justice of the Peace, Frank T. Deasy in San Francisco. The Alameda county vote in this race was: Koford, 42,660; Deasy, 11620; Washington township, Koford, 1328; Deasy, 724.

By winning both party nominations, Representative Carter is assured of re-election in November. His opponent was Burton Hall in the Democratic nomination with no opponent for the Republican nomination. Returns in this vote showed: Carter, 5624; Hall, 2865.

Returns for Alameda county showed:

NORRIS HEARS TWO CASES IN IRVINGTON COURT LAST WEEK

Arraignment and a preliminary hearing of the felony case of Joe Mendes took place in the court of Judge Allen Norris, of Centerville, last week. Mendes was accused of the possession of a still near Irvington. The case was held over for a hearing of the superior court.

Walter Schultz, of Oakland, appeared on the same day on a charge of reckless driving. He was chased through Irvington going 60 miles an hour and was caught by Traffic Officer E. J. Dyas after making a wild turn in town. He paid the fine imposed of $150.

Local Girl Weds In Reno, Nevada

Coming as a surprise to their friends was the announcement of the marriage of Miss Geane Farmer, of Niles, to Neil Leash, of San Leandro. The young couple eloped on August 18 and were married in Reno, Nevada.

Art Moulter and La Von Moulter, of Centerville, cousins of the bride, accompanied them.

DECOTO

By ORVILLE BLOSE

Roy Hurst has returned from a week's vacation spent with relatives in Los Angeles.

***

Mrs. Clarence Silva and children left today for Modesto where they will spend a week on the Oakes ranch. Mr. Silva will join them this week-end.

***

Mr. Masters spent several days in San Francisco on business this week. He announces that the cannery here will begin its run on tomatoes in two weeks. Twenty will be employed.

***

Mr. and Mrs. Rush Rowlet and son, of Berryville, Arkansas, are new residents of Decoto.

***

Frank Swizzig and his family are spending three weeks with relatives in Nevada.

***

Henry May, Decoto school trustee, announces that the Grammar school will open on September 11 instead of September 4 as was previously stated. A large enrollment is expected this year, he says.

***

The budget for the coming half-year was adopted at the last business meeting of the C. E. A vote of thanks was extended to Mrs. Elsie Luna for securing flowers. The members decided to observe Labor Day by cleaning up the church building and grounds. A poem by Edgar Guest entitled "Money" was read by Hans Swanson.

***

Joe Oliver and Walter Avilla spent Sunday in Monterey.

***

DECOTO SPORTS

Sunday, the Leslie Salt team trounced the Allandale Merchants 4 to 1 in a whirlwind game. The star of the game was "Spud" Dagermark, who struck out twelve men. The Alvarado team has a fine record to date.

***

Decoto Juniors lost to Newark Juniors on the victors' grounds Sunday. The third game will be played a week from Sunday.

Holy Ghost Church To Hold Annual Fair

The dates for the annual fair of Holy Ghost Church, at Centerville, has been set for October 18-20. A dance at Parish hall will be the opening affair on the eighteenth.

Petaluma—$6,000 new schoolhouse will be built here.

Meet Held Yesterday At Zwissig Dairy

An afternoon conference on dairy feeds was held at the Zwissig Bros. Dairy, yesterday at 1 o'clock. The object of the meeting was to discuss the feed situation and to make a study of dairy feed rations. G. E. Gordon, Dairy Specialist, presented an interesting and simple method of compounding a dairy ration based on market prices and digestive nutrients. This has been the means of saving a great deal of money to dairymen who have adopted his suggestions.

The Zwissig Dairy is on the Niles Road between Decoto and Niles.

CENTERVILLE DEPARTMENT

EDITORS: Mrs. F. O. Bunting and Mrs. George Coit

The Centerville Grammar School P. T. A. will hold its first meeting of the term in the School Auditorium at 2:30 P. M., Thursday, September 6.

***

Mrs Stewart Gemmel of Oakland was a guest Tuesday at the home of Mr. and Mrs. George Emerson.

***

Mr and Mrs Riley Jury of Mendota, Fresno County, spent the week with Mr. and Mrs. Ralph Emerson. Mr. Jury is Mrs. Emerson's brother.

***

A representative of the Federal Department of Agriculture has been in Centerville this week investigating the presence of the black currant in this locality.

***

Mrs. Morgan Davies has been home for a few days.

***

Mrs. John Nehr (Miss Lucy Hunn) was in town last week and was receiving felicitations and well wishes from her many friends.

***

Friends of Mr. and Mrs. Manual Oliviera have received cards from them from New York. Mr. and Mrs. Oliviera are extending their trip to include a European visit.

***

J. Swartz died suddenly while calling on his daughter Mrs. J. Peixotto. He has been in poor health for some time and under a doctor's care. He leaves another daughter, Mrs. D. Souza, and a son.

***

Rev. W. J. Attwood officiated at the funeral of Mr White of Walnut Creek Saturday and assisted Dean Gee at the Masonic Home Sunday afternoon.

***

St. James' Sunday School will open the first Sunday in September on the second.

***

Friends were all sad to hear of the tragic death of Mrs. R. Lucio. Mrs. Lucio has been in failing health for some time and was at the Livermore Sanatarium. She came from a fine family and will be greatly missed. She leaves a son and daughter as well as her husband.

***

The Fitzgeralds and Mrs. M. Mathieson spent the week-end at Santa Cruz, the guests of Mrs. T. Oakes.

***

Mrs. C. Emerson was in Stockton this week.

***

Mr. and Mrs. G. Worth of Berk- and Miss Margaret Hendry of Palo Alto spent the week-end with Mr. and Mrs. W. Walton.

***

Mrs F. Bishop entertained some friends at luncheon today.

***

Allen Mickle, who is at the Redland Training school for aviation visited his parents last week. Mickle has been flying since March.

Reduced Fares To Be Given For Fair

Special reduced round trip excursion fares from all points in California to Sacramento will be put into effect for the California State Fair to be held there September 1 to 8, according to a joint announcement today by the Southern Pacific, Western Pacific, Sacramento Northern, Northwestern Pacific, Santa Fe, Los Angeles Steamship Co., San Francisco and Sacramento Railroad and the Cental California Traction Company.

The reduced fare tickets will be on sale at all ticket agencies of the carriers mentioned above from August 31 to September 8 inclusive with final return limit September 10.

The carriers also announced that the reduced fares would also apply to and from Verdi, Nevada, and Yuma, Arizona.

No optimist is required today to sense the continuing forward course of American business.—Charles M. Schwab.

COUNTY CHAMPION SPELLERS TO MEET AT STATE FAIR

Battles Of Words Will Decide Who Are California's Best in School And Adult Classes

County spelling champions from the schools of the state and adults who have entered in the free-for-all class are in the final stages of training for the State Fair Spelling Contests, which will be held at California's great exposition next month.

The school champions were selected as a result of preliminary contests. There were no preliminaries for the adults and entries for this are still open.

Alameda county's champions are Wilbur Davis, of Pleasanton, in the elementary school class, and Lena Borgert, of Emeryville, in the high school class.

The elementary school finals will be held at the fair at 10 a. m., Saturday, September 1, and the high school finals the same day at 2 p. m.

The adult contest will be held at 10 a. m., September 4. This is open to every resident of California. All three contests will be held in the convention tent adjoining the educational building and will be open to the public.

The school contests will be particularly interesting, as they will be oral and will be in the nature of a "spell-down." Contestants will not be eliminated until they misspell three words.

The prizes in each contest will be $200 in cash and a gold medal for first place, $100 and silver medal for second place and $50 and a bronze medal for third place.

"This is the first state-wide spelling contest ever held and a remarkable result was obtained," said Ellis Franklin one of the state fair directors, who is in charge of the educational department. "With a few exceptions, the entire state will be represented in these school contests. The county superintendents of schools and the principals and teachers are to be commended for their energy and effort in making this a success."

PERSONALS

Mrs. H. E. Mosher entertained at one of her delightful luncheons today.

The Misses Gallegos entertained a group of local and East Bay friends at their home in Mission San Jose Sunday. A picnic luncheon was served out of doors.

Jack Potterson, son of Mrs. W. B. Potterson, will leave in two weeks to enter school in the south.

Toyon Branch of the Baby hospital will hold its first meeting of the fall September 10 at the Baby hospital, in Oakland. Details of the luncheon meeting will be announced later.

LEGAL NOTICES

CERTIFICATE DOING BUSINESS UNDER FICTITIOUS NAME.

THIS IS TO CERTIFY:

That the undersigned, JOE OLIVER, JR., is doing business under the name of NILES GARAGE, with his principal place of business at the Town of Niles, County of Alameda, State of California, and that said Joe Oliver, Jr., is the sole owner and proprietor of said business and that the name and residence of said undersigned is

JOE OLIVER, JR., Niles, County of Alameda, State of California.

IN WITNESS WHEREOF I hereunto set my hand and seal this 13th day of August, 1928.

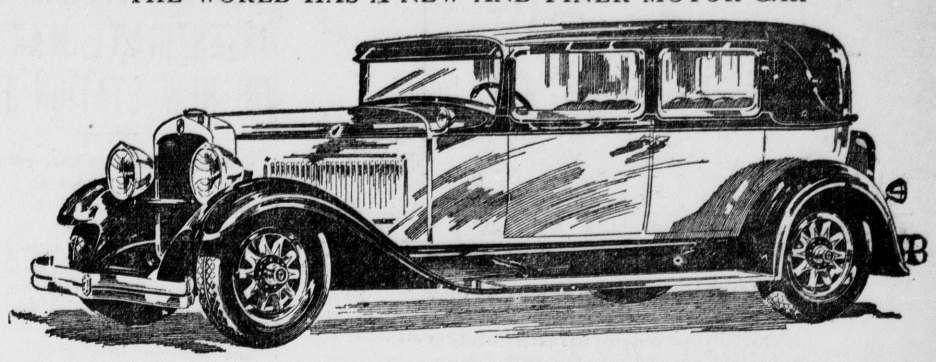
THE WORLD HAS A NEW AND FINER MOTOR CAR



It is a fact that the *Steering ease* and *Riding comfort* of the Nash "400" are so far superior to anything you have ever experienced that, once you drive the new Nash, you will never, we believe, be satisfied with any other car.

NASH "400"
Leads the World in Motor Car Value

OTHER IMPORTANT FEATURES—*NO OTHER CAR HAS THEM ALL*

- Twin Ignition motor
- 12 Aircraft type spark plugs
- High compression
- New double drop frame
- Houdaille and Lovejoy shock absorbers (*Exclusive Nash mounting*)
- Aluminum alloy pistons (*Invar Struts*)
- 7-bearing crankshaft (*hollow crank pins*)
- Torsional vibration damper
- Salon Bodies
- Bijur centralized chassis lubrication
- Electric clocks
- Short turning radius
- Longer wheelbases
- Nash-Special Design front and rear bumpers

2 WAYS TO COMMERCIAL ACHIEVEMENT

WITH the introduction of the new Degree Courses, students at Heald College now have their choice of two types of commercial instruction.... The short Diploma Courses of a few months train students for definite positions and early employment as private secretary, stenographer, junior accountant, office manager, cashier, and other occupations. They also lay a sound foundation for future promotion. The more advanced and longer Degree Courses give actual experience in filling executive positions and in directing the affairs of large organizations. Courses at Heald College offer unquestionably the most complete commercial instruction in the West.

Both Degree and Diploma Courses offer a wide selection of subjects according to each student's ambitions. In both, the student progresses rapidly under the *Individual Advancement Method* for which the College is noted. In both, the student receives actual experience in transacting business and in filling definite positions—a feature found exclusively at Heald's.

RESOLVE that your future position in business and earning power shall be as your ability deserves—that *your* business training shall be secured at Heald College, the largest commercial college in the United States. Prepare now. Superior training for a definite position means early employment, greater earning power, rapid advancement, success.

ENROLLMENT DAILY FOR FALL TRAINING

Students are now enrolling for fall training in day and evening classes. More students are now enrolled at Heald College than any other year in its history—evidence enough of the preference for superior training. Under the Heald *Individual Advancement Method*, each student progresses as rapidly as the subjects are mastered. The sooner you commence the sooner the Heald Placement Bureau will be able to assist you to worth-while employment.

TELEPHONE CONVENIENCE AT THE BED SIDE !

WHEN your telephone bell rings after you have retired for the night, it's mighty convenient to reach out from your bed and answer the call. It's no longer necessary to get up to answer the telephone. Just call our business office and have an extension installed by *your* bedside.

Extension telephones in the home save many tiring steps, are an aid in emergencies or danger and add greatly to the comfort and convenience of the home.

Cost—only a few pennies a day

FOR BETTER SERVICE
Be sure to "hang up" the receiver when you have finished talking. A receiver off the "switch hook" temporarily puts your line out of order. You may miss an important call.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

WASHKOWSKY'S OLD SHOE

We call the attention of the American Bankers Association to the case of Mr. Washkowsky of Brooklyn. Mr. Washkowsky is hard working and thrifty, but like so many of us his education is defective; who is to blame for that we don't know. Mr. Washkowsky has been saving a part of his weekly wages for a long time, but hadn't told Mrs. Washkowsky where he was depositing his nest egg. That was a mistake, probably, but an inquiry into it belongs to another branch of education with which it is probable the bankers association cannot be held to have any concern.

But with Mr. Washkowsky's depository it has. He chose for that purpose an old shoe. He kept the shoe and its mate in his closet, and up to the other day had tucked away in one of them savings amounting to $350. On that same other day Mrs. Washkowsky, rummaging Mr. Washkowsky's closet like a good housewife, seeking what she could throw away or transfer to another place where Mr. Washkowsky couldn't find it, as is the habit of good housewives, found this same pair of old shoes. We suppose she said to herself, Mr. Washkowsky not being present to have it said to him, "Isn't that just like a man?" and acting thereupon just like a woman she sent the shoes to the cobbler to be repaired. It was either that or the ash barrel for them, and being frugal and Mr. Washkowsky paying the cobbler bills anyway, she sent them to the cobbler.

A distraught man was Mr. Washkowsky when he next went to make a deposit in his old shoe. "What new place," he asked in that martyr tone affected by husbands on similar occasions, "have you found for my old shoes?" Mrs. Washkowsky told him, expecting to be praised for her thoughtfulness. Women—but that's another branch of education.

Mr. Washkowsky went to the cobbler and found his shoes, but not the money, which we cannot but feel is not remarkable. We hope he will find it, but he hasn't yet, which again should cause no astonishment.

But what we would like to hear from the American Bankers Association is what steps it is taking to discourage people of magpie habits from keeping their money in stoves, shoes, mantle clocks, behind wall pictures, under floor boards and similar places. We have made no exact calculation, but from casual evidence we are inclined to believe there are enough funds hidden away in such places in this enlightened and progressive country to pay off the national debt. Not that we advise paying it off, because that would leave congress nothing to fuss with Mr. Mellon about; but if deposited in banks our banker might have some to lend when we need it, which he now never has; he says money is very scarce. We hold it is not; it is merely in Mr. Washkowsky's shoe.

Seeing that we have been pursuing education, or something called that, for several centuries, we cannot but feel this is a bad showing and that the bankers association is somehow responsible. It hasn't sufficiently impressed on the people that it has banks and what they are for. Mr. Washkowsky hasn't heard. And there are a lot of him in this country.—Kansas City Star.

WESTERN PACIFIC WILL INVESTIGATE MATTER OF NEW STATION HERE

Again taking up the editorial comment which appeared in the Register a few weeks ago, W. G. Curtiss, general agent for the Western Pacific, was in Niles today. The article stressed the need for a Western Pacific station more accessible to the residents of Niles than the present one situated off the Centerville highway about half a mile, and two miles west of this city.

Curtiss made the statement, while in the Register office, that the company is anxious to investigate the matter so that the suggestion made in this paper might be taken up if the plan proves feasible.

IRVINGTON

By Olivia Foster

The Irvington Boy Scouts enjoyed an overnight camp up Niles canyon last Friday. Those who went included Wallace and Gordon Pond, Ned Witherly, Paul Aust, George Rutter, Joe and John Nunes, Eades Carroll and Scoutmaster, J. R. Stevenson.

***

The Boy Scouts will begin their official meetings on Friday evening at 7 p. m. As most of the scouts have passed swimming tests they are aiming at 100 per cent First Class Scouts.

***

The Irvington Sunday School of the Community church is planning a picnic to Alum Rock on Saturday, leaving Irvington at 9:30. The committee at work consists of Robert Engel, George Rutter, Gordon Pond, June Witherly, Mildred Durham and Evelyn Pond.

***

Mr. James Millard is home again after spending the summer at Colfax.

CENTERVILLE

(More on Page Three)

J. A. Coney, former business man and president of the Centerville chamber of commerce, has been touring Europe for the past three months with his family. Letters have been received this week by friends telling of plans to leave Paris for Germany. They expect to sail for New York about the middle of September.

the TEST of a LAUNDRY

IF YOUR flatwork comes back to you spotlessly clean and ironed, as it does when you send your laundry to us, that is the test by which you may judge the satisfaction of having laundry done away from home.

Representatives: G. W. Golds, Washington Township; De-Luxe Barber Shop, Main 62, Niles; Laumeister, Main 13J, Centerville.

On bundles received Thursday, Friday and Saturday the price for pressing and hand ironing will be only 10c per lb.

DEMAND FOR NASH CARS INCREASES

PRODUCTION FACILITIES ENLARGED; PRODUCTION NOT EXCEED 22,000 FOR MONTH

While August opened for The Nash Motors Company with the greatest demand for cars ever recorded by the Sales Department, additional orders received during the month have placed the total number received in excess of 33,000, representing the largest demand for cars, for one month, in the history of the company.

Anticipating unprecedented demand for "400" series cars, production facilities of all plants have been increased and, even though the plants are producing more cars than ever before, the greatest possible production for this month cannot reach more than 21,000 or 22,000 cars.

While the Kenasha and Milwaukee plants are running at capacity and establishing new high levels of production, the Racine factory, which manufactures the Standard Six series, reahed the largest production for a single day in its history on August 16 when 485 cars were produced.

This condition is all the more remarkable when it is realized that, although the cars were first announced on June 21, just two months later 42,378 cars had been shipped to the dealer organization; and, notwithstanding the excellent production of all plants, the demand for the new series cars has increased steadily since the date of introduction.

In commenting upon the spectacular sucess of the new "400" series, Mr. E. H. McCarty, Director of Sales, said: "The steadily growing demand for the new series cars and the voluntary comments we are receiving daily from owners relative to their performance, makes us feel that we are going to continue at this record business peak for some time to come."

The plans for September call for still further increases in production, consistent with the increased demand.

EXCURSION FARE TO GO ON SALE AUGUST 31st

A popular excursion fare of $15.00 to Los Angeles and return will go on sale August 31 and September 1 with a return limit of September 4, arriving at destination on September 5.

The above tickets are good only in coach service via either Coast or Valley route and may be exchanged on arrival at Los Angeles for tickets of longer limit by payment of the difference in fare raising the ticket to a 16-day or season ticket, in which case return tickets will be honored in a sleeper for the return trip. A similar ticket is on sale in the southern district to San Francisco and return on the above dates.

Did You Ever Stop to Think?

By
EDSON R. WAITE
Shawnee, Oklahoma.

C. C. MAES, GENERAL MANAGER OF THE HOUSTON (TEXAS) POST-DISPATCH, Says:

THAT any sensible person realizes the value of community co-operation. And there can be no community co-operation in a business way unless each business man is willing to help others along.

The manufacturer or merchant who complains that people in his own district are not patronizing him enough often has only himself to blame. Before the public patronizes a home product heavily it must have that product called repeatedly to its attention.

The way to bring about greater home consumption is to advertise. The buy-at-home movement rests on a sound economic foundation and where it is promoted through regular and systematic newspaper advertising it nearly always succeeds.

Buyers as a rule are unwilling to pay much of a premium on goods merely in order to buy them from a home manufacturer or merchant. But the price of the home product being fairly well in line with that of outside competitors, the people will patronize home industry if the latter engages their attention.

The home manufacturer or merchant takes an unsound view in believing that the people should and will patronize him from sentimental motives, without the stimulas of advertising. His outside competitor does not cherish any such fond belief but on the contrary uses newspaper space consistently.

The Home Manufacturer or Merchant Who Offers a Worthy Product and Keeps it Before the People Through the Medium of Advertisements Has a Big Advantage Over His Outside Competitors. He Has If He Will Only Make The Most Of It.

HEALD'S CELEBRATES 65TH ANNIVERSARY

Recollections of San Francisco in the early days were stirred by the announcement made today, that Heald College is celebrating its sixty-fifth anniversary.

It was in August, 1863, that the first of the Heald Colleges was opened by Edward Payson Heald in San Francisco. At the time the Civil War was still in progress; Abraham Lincoln was President of the United States; that distant frontier town, San Francisco, had only commenced its growth as a commercial center.

Heald graduates in those picturesque days of the early "sixties" went to offices along Montgomery, Kearny, Bush, and Pine streets—then close to the waterfront—where the clerks sat on high stools and made prosaic entries with quill pens in the flowing Spencerian style of the time. Payments were made as often as not in gold dust. Real estate offices still dealt in "varas" rather than acres, while "vigilante" was a word fresh on every lip.

The contrast between the offices of those days and of these was evidenced by T. B. Bridges, Managing Director of Heald College, in announcing the anniversary when he said:

"Gone are the days of the ponderous ledger, the quill pen, the pony express, the fancy vests, the high-wheeled carriage, and the sailing ship. In their place appears the bookkeeping machine, the typewriter, air mail, the automobile, and electricity.

"It may be of interest to know that Heald College is today the largest privately-controlled educational institution in the world with an annual enrollment of over 7000 students. The college is authorized by the State to grant degrees in commerce and offers today the most complete commercial instruction in the West."

P. T. A. TO SPONSOR PARENTAL EDUCATION

Mrs. R. L. Cardiff, new State President of the California Congress Parent-Teachers' Association was the speaker at the first meeting of the Sixteenth District held in Oakland, presided over by the President Mrs. F. .V Vollmer. Mrs Cardiff stressed the need of having more fathers as members and that the first aim of the State work will be to form Study Circles for Parental Education. She told that it is time the group sought the masculine point of view by including the Dads in more of the activities of the P. T. A., giving the Dads the oportunity of growth through greater responsibility in the home. She also said that the child must have the intelligent influence of both parents in order to attain proper growth.

Important among the many reports of the chairmen, was that of Mrs. Evans J. Foulds, chairman of Juvenile Protection. She recommended thorough study of the causes of delinquincy in Parental education classes and will sponsor a program of education to inform parents in every community of the agencies set up for the aid of handling problematic children.

Mrs. Chas. Quayle, presented a resolution which was endorsed by the District whereby much needed playgrounds and city parks will be allowed for in its planning and in sub-divisions. It is asked that certain percentages of all city's subdivisions be set aside for parks and playgrounds. Each Council president was asked to see that copies of this resolution be placed in the hands of recreation and city park boards and its planning committees.

NEW AIR BEACON FOR COAST FLIERS GIVEN TO NILES

The Associated Oil Company has had painted on the roof of its station number eight, the name "Niles." In yellow letters eight feet high, it now appears on the west roof of the building, where it will serve as an air beacon to fliers. This action is a part of the company's program to increase safety and interest in aviation.

"Telling the World" Comes Sunday, Monday To New Niles Theatre

William Haines in "Telling the World," a laugh provoking comedy, will appear at the New Niles Theatre Sunday and Monday. Haines, as a young newspaper reporter, pursues his dancing-girl sweetheart to China where they both experience a series of thrilling adventures. The picture is breezy, sparkling, daring, as only a Haines screen triumph can be.

Tim McCoy will be presented tonight in "Spoilers of the West." Irresistible Conrad Nagel will play the male lead in "The Girl From Chicago" coming to the local theatre Saturday. The girl, who laughed at danger, braves the terrors of the underworld to save her brother from death. The picture is a glittering romance of daring.

Lon Chaney, the most popular and appealing of all character actors is coming soon in "Laugh Clown, Laugh."

Historic Trophy To Be Shown at Fair

The oldest and one of the most valuable trophies of which the State Agricultural Society has a record will be exhibited at the State Fair September 1 to 8.

It is a silver pitcher which was awarded by the State Fair in 1860 to T. J. McKim for having invented the best steam engine exhibited that year.

The trophy has been presented to the Agricultural Society by Harry J. McKim, of Oakland, son of the inventor.

LOCAL CANNERY WILL CONTINUE PEACH RUN

The Schuckl plant will continue to can the last variety of Phillips peaches for the next two weeks, according to Al Johnson, office manager. After that period a short time will be spent at the local cannery in making up pears for shipping.

The peach run is longer here, Johnson explained, while more pears are canned in Sunnyvale because of the expert workers in the respective fruits. Niles canners are able to put out a greater supply of peaches than pears.

Mr. and Mrs. L. A. Orcutt have just returned from a week's vacation spent at Tahoe and Donner Lake.

Oakdale—Local Postal receipts increased 20 per cent in July over same month last year.

Highway Department Will Improve Road During Next Year

The improvement of the road between Hayward and Warm Springs will be one of the first projects of the next biennium beginning July 1, 1929. This word has been received by the Niles Chamber of Commerce from the state highway department.

Temporary repairing is being done on this road by planing off the rough spots with a tractor and heavy scraper. The state department considers this road as one of the most important projects in Alameda county and therefore hopes to have the necessary money set aside for its widening and resurfacing next year.

The Friendly Club will meet on the third Thursday of September at Mrs. Bonde's home, according to announcement made by the chairman, Mrs. P. A. Ellis.

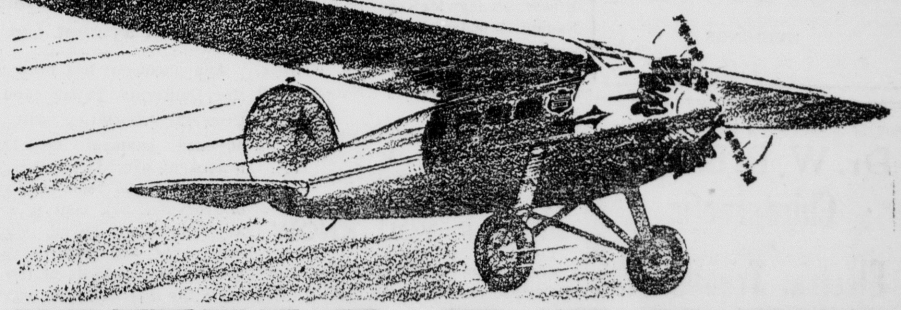
RICHFIELD



WINS AGAIN

RICHFIELD The GASOLINE OF POWER

LOS ANGELES to NEW YORK in 18 Hours 58 Minutes

Flying a Wasp motored Lockheed-Vega monoplane using Richfield Gasoline exclusively, Art Goebel sets a new non-stop transcontinental record...breaking by 7 hours and 52 minutes the old army record established by Macready and Kelly in 1924, and making the second successful non-stop flight from coast to coast in the history of aviation.

Accompanied by Harry Tucker, owner of the plane, Goebel left Los Angeles at 12:10 p.m. and averaged better than 140 m.p.h. throughout his record smashing trip.

Richfield was chosen because of its *proven* qualities of speed and power...the same qualities which made it the choice of Wilkins in his famous 2300 mile non-stop flight over the pole last April... that have won more speedway victories and world's records than all other gasolines combined!

(By Mrs. F. W. Joyce)

Mrs. Baird and Mrs. Scow visited in Modesto last Thursday and Friday with Mrs. Baird's mother-in-law, Mrs. Gregory.

***

Miss Gertrude Ellsworth was the guest of Miss Rosalie Joyce this past week.

***

Mrs. Andrew Logan will be in her new home on the Alvarado-Centerville highway the first of September.

***

The Odd Fellows of Alvarado gave a card party in their hall on Tuesday night. Refreshments were served and many lovely prizes were awarded.

***

Mrs. Willington is visiting this week with her daughter, Mrs. Andrew Logan.

***

Mrs. Henry Heitmuller of Oakland entertained at bridge luncheon last week. Those present from Alvarado were the Mesdames: Walter Robie, John Ralph, Earl Hellwig, F. W. Joyce, August May, Theodore Harvey, E. A. Richmond and the Misses Nancy McKeon and Mildred Nauent. The ladies living out of town were the Mesdames: J. M. Scribner Everett Richmond, Emma Hellwig, Percy Brown, Henry Nauent and Miss Bunker.

Mrs. May won the prize for high score, Mrs. Robie the second, and Mrs. Hellwig the draw prize.

PEOPLE YOU KNOW

Mrs. Madge Voyer and Miss Elsie McCarty, of Piedmont, were the luncheon guests of Mr. and Mrs. George Donovan at the Native Sons picnic Sunday.

Elmer Mareth, former dishwasher at the Peerless Grill here, committed suicide in an Oakland rooming house last week by turning on the gas. Mareth was 28 years of age.

TRAVELER DISCUSSES MEXICAN PROBLEM IN UNITED STATES AT PRESENT TIME

By J. R. STEVENSON

The Mexican problem is a delicate problem in California, for many California farmers are dependent on the Mexican labor to harvest their fruit. Consequently, any attempt to restrict the Mexican from coming into California will meet with some opposition from this section of our citizenry. The California Development Association is opposing the proposed Harris-Box bill on this account for it realizes that in many instances the labor problem of the farmer is a matter of life and death. Nevertheless, to allow the Mexican to come into California without restriction cannot be to the best interest of the country.

One immediate result of the Mexican immigration is seen by referring to the county statistics where we find that in Los Angeles county Mexicans have no qualms about raising large families and then inflicting them upon their adopted Uncle Sam to take care of. One case in Los Angeles deals with a Mexican who raised a family of sixteen and asked the county to allow enough to pay for their hair cutting every monh. At this rate of reproduction Los Angeles county will be entirely in the hands of Mexicans in a few generations.

When heated discussions were entered into between the United States government and the Japanese, one argument used by the Japanese was that they were farming lands in the San Joaquin valley which white Americans would not farm. But even the Japanese themselves finally admitted that the American white was quite able to farm any section of America and that ultimately, in the development of this country, the whites were able to occupy and develop every portion.

It is a tremendously serious thing to bring a foreign element into the country especially when it represents a civilization utterly different from that which the American is accustomed. The old idea of "the melting pot" was a fallacy. They don't melt. Already America has enough problems of this kind on her hands. We have the negro problem, which is an outstanding example of what the desire for cheap labor will do for a country. In the days of Lincoln the negroes numbered half a million; today they number more than ten million and although five thousand of them pass quietly into the American whites every year the majority will always be doomed to bear the stigma of the color line. With a people noted for large families as the Mexicans are, it would be a calamity to allow them unrestricted access to this country.

All along the border, United States officials are on patrol, seeking to keep out undesirables. Even a hundred miles from the border in the Imperial Valley last week I was stopped by an American Immigration official who was searching autos for undesirable Mexicans. In this connection I had an amusing experience at the Mexican border recently, when seeking to return to the United States, after a trip to Mexico. A United States official, a tall young man loking magnificent in his fine uniform and gold badge was representing Uncle Sam. I never did find out what he was there for; whether looking for Mexican immigrants, or liquor, or dutiable goods, for as soon as we saw one another we both burst out laughing for we had been college chums in the University of California. He evidently forgot to ask me any of the usual questions which he should have asked me and we became so busy talking about old times that a long line of autos formed behind us waiting to come across the border. The noticeable feature of these autos, which were compelled to wait while we had our visit was that not one of them dared to honk-honk at us for delaying them.

In these troubled times in Mexico large numbers of Mexicans are seeking to leave Mexico and come to the States where they will evade being drafted as soldiers to fight in a cause which perhaps does not interest them. Los Angeles today contains more Mexicans than Mexico City. In other words, there are more Mexicans living in Los Angeles than are living in any city in Mexico. This is the lesson which we must learn from this; that the Mexican is no different from any other foreigner coming to the United States in that he will not stay a farmer but will drift into the city as soon as possible where he thinks he can live much easier. To bring Mexicans to California is not wrong itself, it often means the difference between profit and loss for the farmer but the real problem comes in keeping them on the farms and we find we cannot do that. They will ultimately drift to the cities where large numbers become public charges or help to swell an already large unskiled labor market.

Growers Association To Make Advance Payment On Prunes

Announcement has been made that the California Prune and Apricot Growers Association will make an advance payment on 1928 crop prunes of over $3,000,000. The payment proposed represents an increase of from one half cent to a cent and a quarter per pound, according to size, over the 1927 advance payment. On the basis of the 1927 tonnage the payment represents an increase of over three quarters of a million dollars

For several weeks past officials of the association have been gathering crop data preparatory to the final negotiations with bankers which made the announcement possible. The association has contended from the opening of the season that quotations made to the trade by speculators have not reflected the true soundness of the market.

In formulating the advance payment schedule association officials announce that a comparatively short world crop, the absence of a carryover and the apparent willingness of independent growers to hold for higher prices have all been considered. The fact has also been considered that some of the other dried fruit industries are demoralized to the point where prices for prunes may be slightly influenced, it was declared.

General Manager Harlan made the following statement in issuing the advance payment announcement:

"It is the intention of the association to give the largest possible first payment to the grower. The continued low offerings by speculators have tended to fix a "low value idea" in the mind of the trade which is not really justified. Grower "open contracts" are the curse of the present prune market. So long as independent growers are willing to deliver their prunes without a fixed price they can expect uncertainties in the market. With all these things in mind the association feels fully justified in its advance payment."

WARM SPRINGS
By Mrs. H. J. Allard

Mrs. Mary Halwick has returned from Calistoga Hot Springs where she has been a guest for the past week.

***

Mrs. Paul Wilbur and children returned to San Francisco after visiting at the Curtner home.

***

Mr. and Mrs. L. R. James, of Oakland, visited with friends here this week-end.

***

Mr. and Mrs. Beleciti, of Saratoga, and Louie Guinchard and daughter, Clemence, were guests at the Allard home Sunday.

***

August Rose, who is suffering with asthma and heart affection, is somewhat improved although little hope is given for his recovery.

***

Mrs. M. Saremento, Sr., is ill at the home of her daughter, Mrs. A. Brown.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.

Oil Company Issues New Colorful Poster

In a colorful poster just issued throughout the Northwest by the Richfield Oil Company entitled, "California Invites You," it is emphasized that Richfield "Gasoline of Power" and Richlube Pure Pennsylvania motor oils are now available from border to border.

Never before, Richfield officials point out, has the "Three Flag Trail"—the highways interlying Canada and Mexico—been so popular as this year. The fact that motorists of Washington and Oregon can use if they like paved highway all the way to Mexico has added interest. Many this year are taking the highly picturesque but more generally rugged road of the Redwood country.

Richfield, establishing a complete chain of independent dealers at frequent intervals all the way south to Tia Juana, Mexico, has anticipated this heavy trek from the Northwest. And now the company is broadcasting by the posters, and otherwise, an appeal to Oregonians and Washingtonians to see golden California.

Here Comes the Bride!

WHAT a joyful moment it is, when the organ sounds the first chords of a wedding march! Every heart is filled with tenderness, as the bride and groom take their place before love's altar

It is the right of every girl to have *her* wedding beautiful and "correct" in every detail. The young lady in *your* family is expecting that kind of a ceremony—*some day*. Until she wishes to make it known, the date must be a secret most precious.

But when it *is* announced, she will be just as particular about having *that* done properly as about the flowers in her bridal bouquet.

When Wedding Invitations and Announcements are entrusted to this office, you may rest assured of three things: Whether printed or engraved, they will be quite in harmony with what *you* consider best. Their cost will both surprise and please you. And as for keeping a secret—why, even "the lucky man" himself could not bribe us to tell him when it will happen!

CALIFORNIA NEWS BRIEFS

State Senator Thomas Ingram, who represented the Third Senatorial District, comprising Nevada, Placer, El Dorado, Sierra and Plumas counties, in the California Legislature during the past 12 years, died at his home in Grass Valley last week.

Airplane insurance policies covering fire, burglary, theft liability and accidents may be written by California insurance companies under existing State law. Atty. Gen. U. S. Webb advised Charles R. Detrick a few days ago that aircraft insurance may be handled along these lines until such time as the State Legislature sees fit to pass special insurance legislation dealing with the aviation industry.

Barber shops in California must be sanitary or the State board of barber examiners will close them. The total of 166 shops were closed temporarily during the year ended June 30, 1928, quoting figures contained in the board's first annual report to Governor C. C. Young. Barbers must also be cleanly and free from diseases and contagious infection and non-drug users, the board holds. There were 402 barbers refused licenses to operate during the year, the report stated.

Dozens of tax suits aggregating millions of dollars in worth to the State as revenue from banks probably will be withdrawn as the result of the special session of the 1927 Legislature which Governor Young is expected to summon not later than early in September to pass on the California Tax Commission's recommendations for a constitutional amendment legalizing bank taxes.

Certification of 109,990 signatures on anti-prize initiative petitions was announced last week by Secretary of State Frank C. Jordan. Though the measure to repeal the California prize fight law qualified for a place on the November election ballot more than a week ago, petitions from both Northern and Southern California have continued pouring into the Capitol. Receipt of petitions was announced from Nevada, San Diego, Colusa, Monterey, Sacramento and Alameda counties, the last named alone filing 11,384 names.

Three eras of California history will have parts in Monterey's third annual Serra Pilgrimage Fiesta, August 23-26. Days of the Dons who founded Monterey in 1770 will be portrayed in a pageant by Perry Newberry, Carmel author, and Monsignor Ramon Mostres, curator and pastor of the Monterey and Carmel Missions. Life during the 30 years of Mexican occupation will be typified by a bull fight, with picadors, toreadors, and a real bull. At balls to be staged each night during the fiesta, the third or American period will be commemorated when costumed pioneers, Mexican and Spaniards unite in celebrating history.

Covering a distance of twice around the world and behind schedule only twice is the record announced a few days ago by Western Air Express, Inc., for its huge 12-passenger planes being operated in daily service between Los Angeles, Oakland and San Francisco. The service was established May 26 last. Since then, the company reports, the planes have covered 50,000 flying miles at an average speed of 123 miles per hour. The air distance between Los Angeles and San Francisco is 365 miles. The trip has been made daily in three hours. Twice have planes arrived late, once by three minutes and again by eight minutes. On the the other hand, one plane made the trip in 2 hours, 28 minutes.

California's banking system, with total resources of $1,851,998,023 as of June 30, ranks sixth among the State systems of the United States, according to figures compiled by the National Association of Supervisors of State Banks. Exceeding California in resources are New York, Massachusetts, Pennsylvania, Illinois and Ohio. Due to the nationalization of the Bank of Italy and the Pacific Southwest Bank within the last two years, there has been a decrease in the total resources of State banks in California. However, this loss in resources is being rapidly overcome by the growth of State banks.

Wasted fruit and vegetable crops of California would be used to operate automobiles up and down the highways and byways, if Dr. Henry Arnstein, noted chemical engineer, had his way. Dr. Arnstein declared in San Francisco last week it is an economic crime to allow fruits to rot on the trees and vines because of an overstocked market. Raisins, peaches, prunes, apricots, cereals need never go to waste and the production may be steadily increased if the surplus food is scientifically and chemically changed into alcohol and by-products. He estimated that the 150,000 tons of surplus raisins in California would make 12,600,000 gallons of alcohol, besides profitable by-products.

The old West is gone indeed. An initiative measure which would virtually take the spurs off bronco busters' boots was qualified last week for the November election ballot. The initiative, which positively forbids the use of spurs to make animals buck, won a place on the ballot with 105,979 petition signatures, 14,450 more than were needed. In addition to its provisions against the use of spurs, the iniative, sponsored by the Anti Rodeo Cruelty Association, would prohibit "bulldogging," wild animals racing and similar events of Wild West roundup programs.

Two hundred thousand young trout from the State hatchery in Mt. Shasta, making a whole carload, arrived in Redding a few days ago. They were liberated in the various mountain streams in the eastern part of the county, North Battle Creek getting 24,000, the largest allotment.

Automobile sales taxes levied against cars sold in California after May 28th will be returned, the collector of internal revenue, J. P. McLaughlin, announced recently. He issued a statement setting forth the exact provision of the act, abolishing the federal levy, adding that if possession of a machine or title to one purchased on contract had been acquired prior to May 28th no refund would be given.

In Folsom prison the high cost of eating is not a problem, if you will accept the prison's budget as a criterion. Operating its own "restaurant," with all the waiters and cooks "working their way through," Folsom feeds its inmates for 23 cents per man per day. The total per capita cost of maintaining the prison, including policing of the institution, is 63 cents, according to the budget returns.

Announcement that legislation is now being prepared, which would place highway traffic officers under the exclusive control of the State division of motor vehicles was made last week by Frank G. Snook, chief of the division. This would mean the abandonment of the present system by which appointments to the force are suggested by the county boards of supervisors.

The fight of fourteen bay region truck lines to have the new State tax law against their receipts declared unconstitutional was lost recently at San Francisco. Federal Circuit Judge Hunt and Federal District Judges Kerringan and St. Sure handed down a decision that the truck men's plea was without merit. The trucking companies alleged the tax was discriminatory, because it taxed only companies with regular bases of operation and not "wildcat" carriers, and therefore violated the fourteenth amendment.

Mattresses, like watches, can't be judged by the ticking. That is the gist of a statement by State Agricultural Director George H. Hecke, annuoncing that manufacturers and dealers in some counties have been convicted of putting old burlap and other prohibited materials in pretty ticking for sale as a brand new mattress, feather beds and pillows. Most manufacturers are observing the State regulations honestly and fairly, Hecke said, and those who don't will have to explain to the judge.

Work on a $1,750,000 Marine hospital will begin immediately following the selection of a site near the San Francisco Presidio, Arthur William Newman, architect for the United States Treasury, announced last week. A contract for a topographical survey of the site, which must be selected within thirty days, was let to Hugh Donegan, surveyor and contractor. The hospital will be six stories high and will be completed within two years. Government patients from all sections of the West will be treated at the institution.

City Attorney J. LeRoy Johnson of Stockton was in San Francisco last week conferring with United States Attorney Hatfield regarding Stockton's proposed $5,000,000 deep water channel. The conference was principally concerning methods of acquiring right of way titles through State and government action. Right of way for the channel, which would be thirty miles long, fourteen miles of which would have to be dredged, is progressing rapidly, Johnson said. Stockton in 1926 voted a $3,000,000 bond issue. Government appropriations have reached $1,500,000 and $419,000 is asked of the State.

State Controller Ray L. Riley's drive to compel payment of taxes owed the State by motor transportation companies has been practically 100 per cent successful, he announced a few days ago. Threatened with State seizure of their cars, companies owning approximately 1,000 motor vehicles have nearly all taken steps to pay their taxes, Riley said. Estimating that not more than fifty machines will have to be sold for taxes, the Controller said that by August 13 his department will have collected $750,000, representing the first installment of a $1,000,000 tax levy and including all unsecured taxes.

California's State motor vehicle act, which long has been a model for the nation, is to be overhauled. Remodeling of California's code to cope with changing conditions will get under way at a meeting of the Motor Vehicle Conference, made up of State-wide organizations and State officials concerned with traffic and safety conditions, to be held in San Francisco, August 24. The call for the Conference meeting was issued by Percy E. Towne, its chairman and a director of the California State Automobile Association, in conformity with the expressed desire of Governor C. C. Young to have important legislation drafted in complete form and introduced during the first half of the coming session of the Legislature.

Refused a California charter by the Secretary of State, the Bankers' Development Corporation of Delaware a few days ago served notice it will commence suit for a legal interpretation of State bank act provisions. Deputy Secretary of State Robert V Jordan announced the Delaware company was refused the right to incorporate because of a California bank act section which prohibits use of the words "bank," "banking" or "banker" in the corporate name of any concern not actually engaged in the banking business.

California Ranch News

Every time the farmers of California go to bed they do so with the satisfaction that come from the addition to their income of more than a million dollars. Fruit and field crops of the State brought returns of $386,562,000 in 1927, according to records of the State department of agriculture.

Announcement that broadcasting of crop and market news over a station now being equipped in the Capitol Extension Building at Sacramento, will be commenced about September 1 was made by George H. Hecke, director of State Department of Agriculture last week. H. James Breuer will have charge of the station.

November 19-20 and 21 are the dates of the regular State convention of fruitgrowers and farmers this year and the new municipal auditorium at Riverside is the place. This will be the sixty-first annual session of the organization. The attendance from year to year averages 500 of the leaders of the State in all branches of orchard and field crops. It is proposed now to broaden the scope of the meetings to include live stock producers.

The tenth annual San Diego County Fair and Horse Show, to be held the week of August 28 to September 1, will be the biggest event of the kind ever staged at San Diego, the management announces. Double the amount of space required in previous years will be devoted to the exhibits of fruits, vegetables, live stock and poultry, and it is estimated that twice as many display booths will be required. More money is being offered as prizes and premiums and cups and other trophies will be awarded in numerous classes.

The new $300,000 animal science building at the College of Agriculture at Davis, will be ready for occupancy by October 1st. The south wing will be occupied by the animal husbandry offices and those of the entomology and zoology divisions, but it is still undecided as to the exact use of the north wing. For this reason, the north wing will be completed last. The animal science building was started last Spring and is a two-story, concrete structure with tile roof. The entrance is on the southwest corner and is three stories in height. The construction throughout is of reinforced concrete, and the equipment in the laboratories is of the latest and best type.

Several poultry specialty clubs will hold their annual meetings at the Los Angeles County Fair's poultry show, to be held in Pomona September 18 to 23, according to Paul E. Kennedy, superintendent of the poultry department of the fair. Among those who will stage meetings there are the American Bantam Association, the California Breeders of Rare and Fancy Fowl, the California Barred Plymouth Rock Club, the California Branch of the Standard Bred Poultry Association, the Red Cornish Club of America, and the California branch of the Rhode Island Red Club of America.

Idaho will be among the western states represented at the eighth annual Pacific Slope Dairy Show to be held at Oakland November 19th to 24th, according to Secretary-Manager Robert E. Jones on his return from a visit to the Pacific Northwest. During his trip in the interest of the show, Jones was one of the speakers at a gathering of 10,000 dairymen at Caldwell, Idaho. Senator W. E. Borah and Governor H. C. Baldridge, both of Idaho, delivered the principal addresses of the meeting.

Protection of grain crops and other farm property from roadside fires may be augmented by use of a chemical spray to kill all weed and plant growth with which it comes in contact, if experiments justify the claims of the discoverers of a commercial solution brought to the attention of Governor Young's committee on grain fires a few days ago. The spray preparation is non-inflammable and nonpoisonous and not injurious to the soil. More than 100,000 acres of grain and grass were swept by fires during the present year, according to state records. Governor Young is much concerned over these losses to individual farmers and to the economic wealth of the State. He has asked the committee to investigate every phase of the problem of preventing such heavy losses in the future.

Experimental tests in the shipping of grapes and other decidious fruits under refrigeration are being conducted in California by Dr. L. A. Hawkins, who has charge of fruit and vegetable handling and transportation and storage investigation for the bureau of plant industry, United States Department of Agriculture. Dr. Hawkins is working with State agricultural officials. He has been responsible for many transportation improvements beneficial to California's fruit industry.

Campaign to raise $30,000 advertising fund to tell the East about Lodi's famous flame tokay grapes. Sales promotion will be conducted under direction of the California Vineyardists' Association. This is the first time an advertising campaign has been attempted.

California is the most important dried prune producing section of the world. Of an average world production of 232,125 tons in the period 1921 to 1926, California's production constituted 56 per cent, Yugloslavia's 30 per cent, the Pacific Northwest 11 per cent and French 3 per cent.

The sixteenth annual Southern California fair, to be held at Riverside September 25 to 30, will offer prizes totaling more than $30,000 for displays of the Southland's farm products, it is announced by George W. Thomas, president of the Forty-sixth District Agricultural Association. Committees to handle both the exhibition features and the entertainment have been formed, and the chairmen have arranged their schedules.

A Yolo County Rombouillet ram, owned by F. N. Bullard, brought the top price of $800 at the annual West Texas Coast and Sheepraisers' Association show at San Angelo, Texas. One hundred and fifty-seven Yolo sheep were sent to the exhibition and they found a ready market at top prices. Bullard, William Briggs and C. Don Huff were the Yolo growers who shipped their stock to the show.

With the opening of the twelfth annual Orange County Fair less than a month distant, and entries already being received at the fairgrounds on the State highway between Santa Ana and Anaheim, offices and headquarters of the fair are humming with activity. The Orange County Fair this year will start September 3 and continue through September 8, and will open the county fair season in Southern California.

Demand for California dried and canned fruits is at low tide in European countries, according to R. E. Miller, vice president and member of the advisory committee of the Bank of Italy. Miller, who has just returned from a seven months' trip abroad, says that high tariff on the one hand and the fact that Europeans became accustomed to a cheaper grade of product during the war accounts for the falling off of the California foreign market.

Plans for a raisin pool to alleviate the lot of California vineyardists will leave the situation unchanged so far as this year's crop is concerned. The committee appointed at a recent meeting to effect a pool announced last week that it will not be possible to sign up the 1928 crop. The stated reasons for disregarding this season's crop are: 1—A large tonnage has already been contracted for by packers. 2—The growers consequently are not interested in signing up the 1928 crop. 3—If the pool should be formed this year it would be faced with the necessity of carrying over a surplus without the possibility of marketing it.

"Modoc and Lassen counties of California have so eradicated and controlled bovine tuberculosis under the free area plan that the percentage of infected animals is now less than one-half of one per cent," states Director Hecke of the State department of agriculture. "Of almost 100,000 animals in these counties, only fifty-five reactors were found in 2,401 tested. Modoc, Lassen, Plumas, Shasta and Tehama counties are now all in the tuberculosis eradication area and no cattle can be shipped into them without being first tuberculin tested and certified to be free of this disease.

The new U. S. grade standards for both table and juice grapes for 1928 have been established and official announcement was released a few days ago through the office of W. F. Allewelt, chief, bureau of fruit and vegetable standardization. Of the changes that have been made those regulating color requirements for the various grades are among the most important. It was very apparent in 1927 that while the color of the Tokay crop was exceptionally good the color requirements of the Fancy grade were so high that it was practically impossible for this variety to meet them. Consequently the requirement has been changed from 75 per cent to 60 per cent of well colored berries on each bunch.

California, after practically a decade of prohibition, has 13,691 acres of bearing wine grapes as compared with only 97,000 acres in 1919. These figures announced a few days ago by State-Federal agricultural statisticians, also reveal that the present bearing acreage of wine grapes represents a gain of 6,500 acres in the last year. The State's wine grape production for last year established a new record. The crop totaled 473,000 tons, returning approximately $45 a ton to the growers.

The KITCHEN CABINET

(©, 1928, Western Newspaper Union.)

What is the range that Nature gives her own?
With frost or fire she stays their flying feet,
And holding each within its native zone:
The pine its love, the palm, shall never meet:
Nowhere do roses bloom from field of ice.
Nowhere in valleys blooms the edelweiss.—Edith Thomas.

SEASONABLE DISHES.

Succulent salads, juicy fine flavored fruits and greens of various kinds are the foods that appeal to the appetite during the warm days.

Lettuce With Columbia Dressing. — Prepare lettuce by washing and chilling well in cold water, then drain and shake dry in a cloth. Arrange the lettuce in the salad bowl in its original shape and pour over a dressing made as follows: Mix one teaspoonful of salt, one of mustard, one-half teaspoonful of onion juice, one tablespoonful of worcestershire sauce, two tablespoonfuls of lemon juice and six tablespoonfuls of olive oil, in a small glass jar. Set in a cold place and shake thoroughly before using.

Cheese Sandwiches.—Cut stale bread in one-fourth-inch slices, remove the crusts and cut in rectangular pieces. Cut mild cheese in slices of the same size as the bread and sprinkle with salt and cayenne. Put a slice of cheese between each two slices of bread and fry in a small amount of butter until well browned on both sides.

Pear and Tomato Salad.—Peel and cut into quarters one or two each of pears and tomatoes. Arrange them in alternate quarters on a bed of lettuce and serve with a snappy French dressing.

Cream Scones.—Mix and sift two cupfuls of flour with four teaspoonfuls of baking powder, two teaspoonfuls of sugar and one-half teaspoonful of salt. Rub into the dry mixture four tablespoonfuls of butter, then add two beaten eggs, reserving a tablespoonful in the bowl. Add one-third of a cupful of cream and mix, toss on a floured board and roll out. Cut in squares or diamonds, brush with the egg and sprinkle with a little sugar. Bake in a hot oven fifteen minutes.

The Common Potato.

When cooking potatoes for salad, cook them with the skins on, cool, and peel then cut up as usual. Remember that a good potato salad must stand several hours in the dressing with the seasoning to be palatable.

French Fried Potatoes. —Wash and peel small potatoes and cut in eighths lengthwise, cover with cold water for an hour. Drain and parboil in boiling salted water for two minutes, drain again, plunge into cold water, dry between towels and fry in deep fat until delicately browned, a few at a time. Heat the fat to a higher temperature, turn all the potatoes into a frying basket and fry until crisp and brown, keeping the basket in motion. Drain on paper and sprinkle with salt.

Scalloped Potatoes With Ham.—Slice very thin enough potatoes for the number to serve. Arrange in layers in a well-buttered baking dish, add a layer of finely minced onion, then a layer of any cold cooked ham either sliced or minced, another layer of potatoes and, when the dish is full, cover with milk. Cover well after plenty of seasoning of butter and salt and bake until tender.

Potato Fritters.—Take two cupfuls of hot riced potatoes, two tablespoonfuls of cream, one teaspoonful of salt, a few grains of cayenne and nutmeg, the yolks of two eggs well beaten and two tablespoonfuls of orange juice, fold in the beaten whites and set the bowl in ice water, beat until cold then add one-half cupful of flour and when well mixed drop by spoonfuls into deep fat. Fry until brown.

Spanish Potatoes.—Boil or steam the amount of potatoes to serve. Place in the vegetable dish in which they are to be served, two to four tablespoonfuls of butter and a tablespoonful of minced onion for each two of butter, the amount depends upon the amount of potato, add salt and a little cayenne and turn with the butter and onion. Serve hot.

Baked Pork Chops With Potatoes.—Arrange as many potatoes, thinly sliced, as needed in a shallow baking pan, over them arrange pork chops, seasoning both the chops and the potatoes. Pour in enough milk to keep the potatoes well moistened and bake until the meat is well browned, turning once.

Saratoga Chips.—Wash and peel potatoes and slice with a potato slicer into a bowl of cold water. Drain, plunge into a kettle of boiling water and cook one minute. Drain again, and cover with cold water. Drain and dry between towels. Fry in deep fat until a light brown, keeping in motion with a skimmer. Drain on brown paper and sprinkle with salt.

Stuffed Figs.—Mash cream cheese with heavy cream adding a bit of salt and cayenne. Make into balls three-fourths of an inch in diameter. Cut well washed and dried figs on the side and stuff with the cheese. Arrange on a plate in piles.

Nellie Maxwell

THERE is nothing that has ever taken the place of Bayer Aspirin as an antidote for pain. Safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get real Bayer Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

One Secret of Beauty Is Foot Comfort

Frequently you hear people say, "My feet perspire winter and summer when I put on rubbers or heavier footwear—then when I remove my shoes my feet chill quickly and often my hose seem wet through." In every community thousands now use Allen's Foot-Ease in the foot-bath daily and then dust the feet and shake into the shoes this antiseptic, healing powder. Full directions on box. Trial Package and a Foot-Ease Walking Doll sent Free. Address, Allen's Foot-Ease, Le Roy, N. Y.

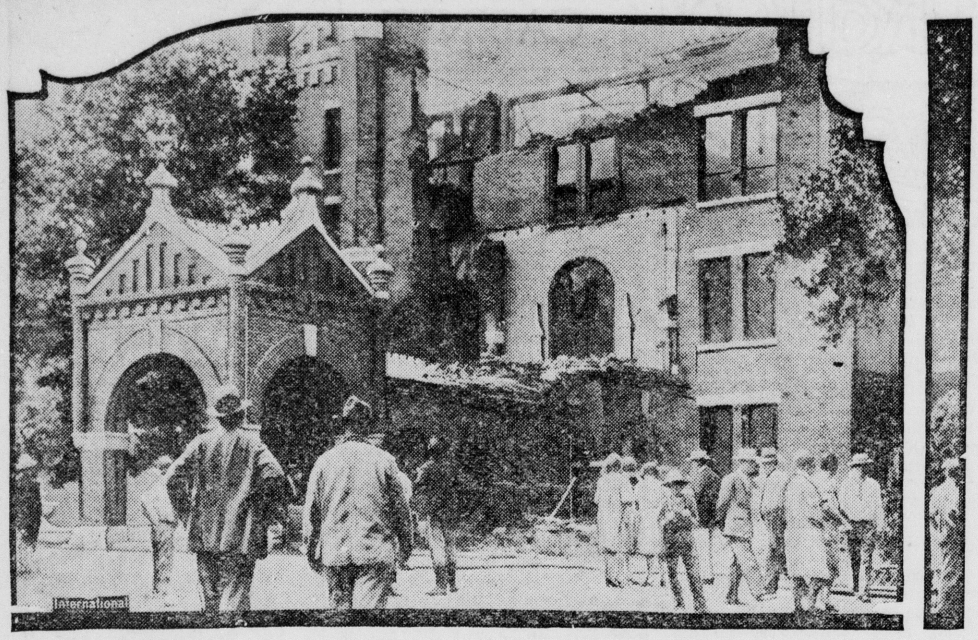
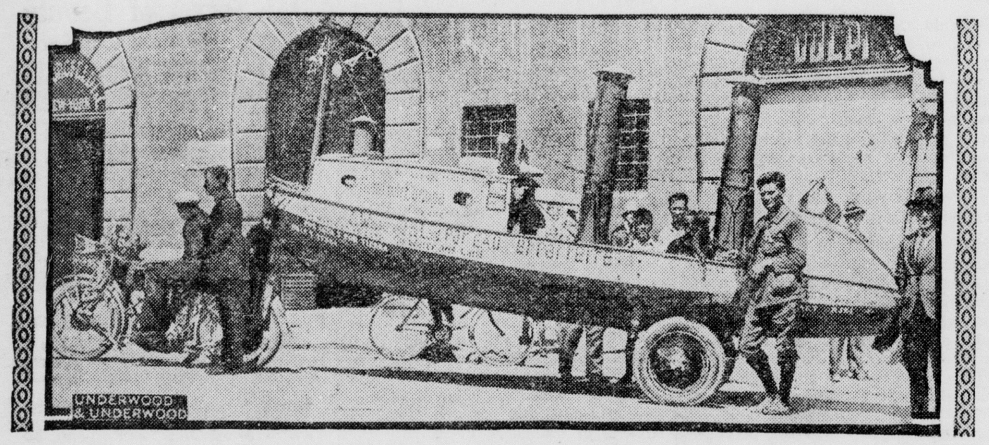
Insane Asylum Burns; Thirteen Missing



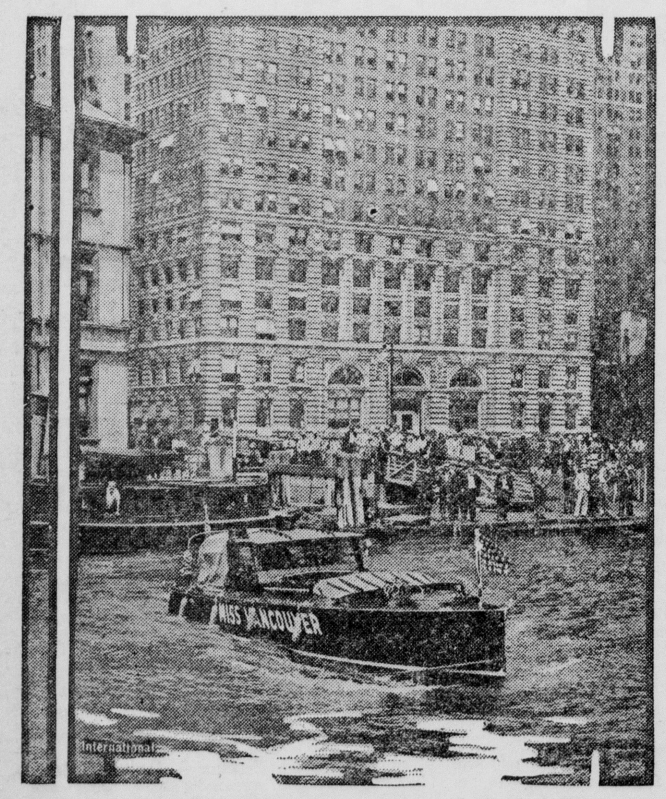
Administration building of the Central Hospital for the Insane at Nashville, Tenn., after the recent fire that swept through the institution. More than a thousand inmates were released to save them from the flames and thirteen were missing.

Youths Touring Europe by Sea and Land



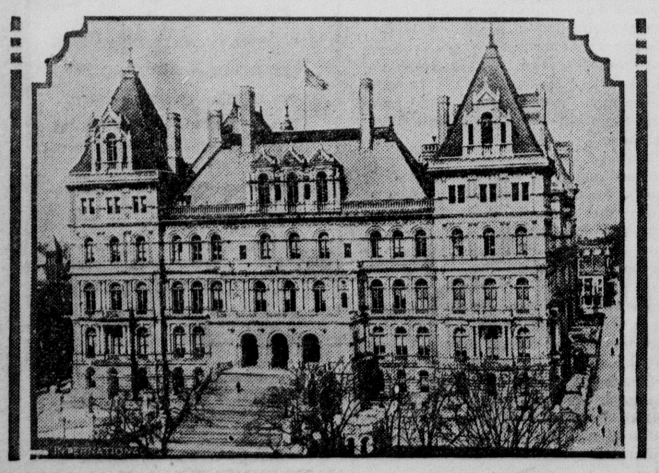
This photograph shows the arrival at Florence, Italy, of three young men who are making a tour of Europe by sea and land in the queer contraption seen in the picture. They had already traveled more than 13,000 miles.

New York to Vancouver by Motor Boat



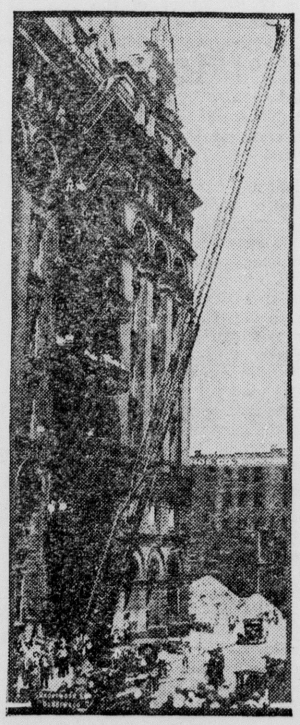
The motor boat Miss Vancouver, carrying James McArthur and Sydney McQuillan, as it started from the Battery, New York, on its way to Vancouver, B. C. The young men, who are members of the Royal Hamilton Yacht club, expect to average twenty miles an hour. They will follow the Atlantic coast, cross the Caribbean sea, thence through the Panama canal and up the Pacific coast.

Where Smith Will Hear of Nomination



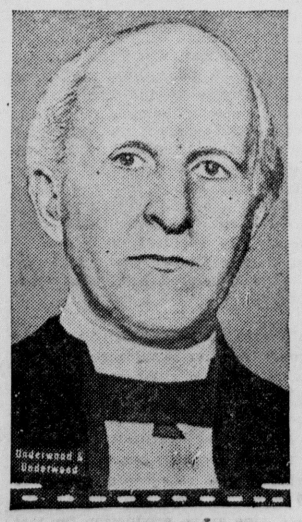
On the steps of the New York state capitol in Albany, shown above, Gov. Alfred E. Smith will be formally notified, the evening of August 22, that he is the Presidential nominee of the Democratic party.

TALL TRUCK LADDER



The tallest fire truck ladder in America being tested in Milwaukee. The ladder, which was made in Germany, rises to a height of 100 feet in about thirty seconds.

NEW PRIMATE



Most Rev. Cosmo Gordon Lang, former archbishop of York, who has been made archbishop of Canterbury and primate of the Church of England to succeed Archbishop Davidson who resigned.

Largest Arch

The largest municipal arch in the world is the Arc de Triomphe in Paris, France. This edifice is 162 feet high and 147 feet wide. It was erected in 1806-1836 to celebrate Napoleon's victories.

Quality That Counts

No dollar can buy so much as the one that has been honestly and squarely earned. There is something more than money in it—satisfaction.—Capper's Weekly.

Not Confined to a Few

I have found that the flame of moral judgment burns just as brightly in the man of humble and limited experience as in the scholar and man of affairs.—Woodrow Wilson.

Another View

"I visit my friends occasionally," remarked the book lover, "merely for the purpose of looking over my library."

Great Religious Sects

The world's population of Mohammedans and Buddhists is estimated at 730,000,000.

Useless Information

An industrious statistician has discovered that Great Britain uses an average of 2,798,373,100 buttons a year.

Let Charity Be Wise

It is wicked to withdraw from being useful to the needy, and cowardly to give away to the worthless.—Epictetus

Elephant Good Swimmer

The elephant swims more easily than it walks. It simply stands up right and treads water.

Epoch in History

Coal was discovered in America 250 years ago.

He that walketh with wise men shall be wise; but a companion of fools shall be destroyed.—Proverbs 13:20.

Three of the five men that drafted the Declaration of Independence were scientists.

If one is tender-hearted, may the Lord give him wisdom with it.

Unless a man possesses self-control he is little better than a slave.

The popularity of some people is due to the things they don't say.

Few people impair their eyesight looking on the bright side of things.

Study your own self.—St. Bernard.

Education Routs Prejudice

Prejudices, it is well known, are most difficult to eradicate from the heart whose soil has never been loosened or fertilized by education; they grow there, firm as weeds among rocks.—Charlotte Bronte.

That Kind of Man

He is the kind of man, we said in our bitterly intolerant way, who is much nicer to the society editor than he is to the elevator operator.—Ohio State Journal.

Molasses Not Treacle

The words "molasses" and "treacle" are often used as synonoyms but properly speaking molasses is the uncrystalized sirup produced in the making of sugar, while treacle is obtained in the process of refining sugar.

Oxen in Farming

South African farmers find oxen profitable in farming. A two-year-old steer costs $25, and after four or five years' work, the butcher will pay $50 for him.—Farm & Fireside.

Alpaca and Sheep

The body of the alpaca has somewhat the form of a sheep, but it has a long neck. It is also more active and carries its head erect.

Uncle Eben

"We all has an ear foh music," said Uncle Eben, "an' many a man is heard wif attention, simply because he has a good bass voice."—Washington Star.

Derivation of "Latin"

The word Latin is derived from Latinum, which was that part of ancient Italy which included Rome.

Banana Prolific Plant

An ordinary crop of bananas yields approximately 32,000 pounds of food per acre.

The Pity of It

Lots of people are sure they are right who never go ahead.—Boston Transcript.

Idleness and pride tax with heavier hand than kings and parliaments.—Franklin.

The man who can acknowledge a mistake without blaming it on some one else has true moral courage.

In some families, if they can get it, they think they can afford it.

He who takes no position will not sway the human intellect.—Shedd.

Logic proves or disproves all things but it doesn't accomplish any of them.

Wrote of Christian Sect

In the Annals of Tacitus, Roman historian, the fact is stated that there existed a sect known as Christians, who were followers of one Jesus Christ, executed by command of Pontius Pilate.

Middle Age "Palmers"

In the Middle ages a pilgrim returned from the Holy land was entitled to wear a piece of palm in his hat. He was, as a result, sometimes called a palmer.

Old Queen of the Seas

The United States superdreadnought Wyoming on July 19, 1912, made 22,045 knots on her standardization trial. This was the largest and fastest battleship afloat at the time with twelve-inch guns.

Height of Wisdom

"We regard our ancestors as wise," said Hi Ho, the sage of Chinatown, "especially those ancestors who attained riches we hope to inherit."—Washington Star.

The Verdict

"Beautiful," murmured the flapper tourist as she gazed upon the image of the sphinx. And as an afterthought she added, "but dumb."

Worth Remembering

When a man offers you something for nothing, don't accept it unless you can afford to pay at least double its value.—Exchange.

Few Do It

Another good intelligence test is the ability to memorize good poetry—and never quote it.—San Francisco Chronicle.

Poor Policy

To lose our charity in defense of our religion is to sacrifice the citadel to maintain the out-works.—Colton.

Turks Bar Christianity

Turkey is the only country in the world in which Christianity is not accepted as a religion.

Evil in Satiety

I hold this to be the rule of life: Too much of anything is bad.—Terence.

Its Significance

The gold fringe on the American flag denotes that it is regimental colors.

It takes a pretty girl of eighteen, with lots of company, to brighten up the gloom of a big old mansion.

A man gets great diversion out of his reason if he has a good one.

STILL BREAKING SALES RECORDS!

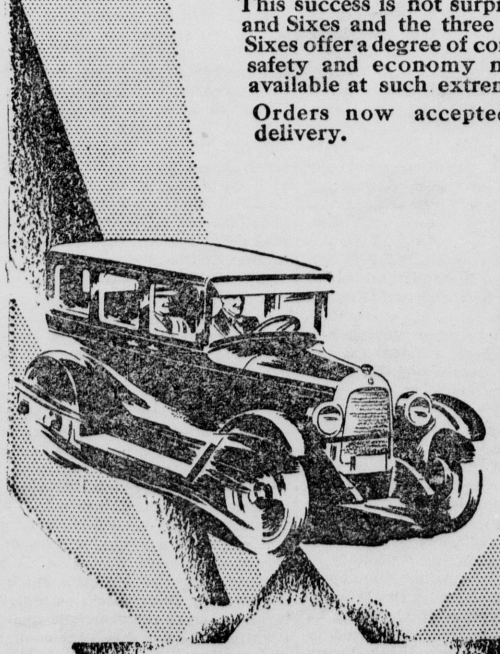
GREATEST JULY IN WILLYS-OVERLAND HISTORY

The big forward march of Willys-Overland continues!

Following the greatest six months in Willys-Overland's 20-year history, with sales exceeding the entire 1927 output, came July with far more sales than any previous July. 100% more Whippet and Willys-Knight cars were purchased than during July last year.

This success is not surprising. Whippet Fours and Sixes and the three great Willys-Knight Sixes offer a degree of comfort, performance, safety and economy never previously available at such extremely low prices.

Orders now accepted for prompt delivery.



THE NEW Whippet Six WORLD'S LOWEST PRICED SIX SEDAN $770 with 7 BEARING CRANKSHAFT. Whippet Six Touring $615; Roadster $685; Coach $695; Coupe $695

WILLYS-KNIGHT DOUBLE SLEEVE VALVE SIX $995 COACH. Standard Six Coupe $1045; Sedan $1095; Touring $995; Roadster $995. Special Six prices from $1295 to $1495. Great Six prices from $1850 to $2695.

4-cylinder Whippet SEDAN $610

Touring $455; Roadster (2-pas.) $485; Roadster (with rumble seat) $525; Coupe $535; Cabriolet Coupe (with collapsible top) $595; Coach $535. All prices f.o.b. Toledo, Ohio, and specifications subject to change without notice. Willys-Overland, Inc., Toledo, Ohio.

Come in. Let us arrange for an early demonstration so that you may judge for yourself the performance ability of any of these modernly engineered cars.

Reporter Finds Visit To Niles Schuckl Cannery Fascinating

By the Cub Reporter

Walls and walls of bright, shinning tin. Thousands upon thousands of tiny scintillating cans bustling about under the weight of their own importance. We of Niles do not realize what fascinating food for study we have right at our own door.

A trip through Schukl's cannery the other day left a decided impression of surprise and wonder with us. We could not help but think that no matter how many times a day we open a can of fruit or vegetables we never think of its origin beyond the grocer who either overcharged or sold us a bargain.

But after viewing the entirely intricate process of delivering ripe, luscious fruit to us, already peeled, pitted and cooked, our thoughts will never again jump from the tree into our own kitchens when serving a dish of canned dessert.

Hundreds of cheery, blue-clad girls handle the peaches in the first part of the process. Number 25 patiently explained to us this business of cutting the peach and sending it down the slide to meet the rest of its brothers before going through the intricacies of washing and slicing. We found that the pits were separated behind a huge wall so we were forced to go on without asking the usual ignorant, "how." Our patient guide also explained that the skins come off in the acid bath.

Our necks grew weary following the dancing of the machinery in the grading department. There were a series of jiggling, porous stairs. Each little peach would say to each other little peach, "Come on, see if you can slide through this little hole—if you do you aren't so good." At any rate, we deduced that the largest snobbishly kept to themselves and were therefore known as Grade A.

The canning rooms attracted us the longest. We were allowed to bother as much as we pleased—for someone had the bright idea that we were inspectors!

Machinery as perfect as clockwork—hands trained to make just the proper motion at the proper moment—long lines of scurrying cans—dashing madly to be filled, then to be lidded, then to be cooked, then to be cooled, then to be closed away in boxes and box cars marked, "Liverpool." It reminded us of a political convention so important-appearing were the larger individuals—so rushed were they all.

We could not help but note the sanitary precautions taken in the entire process. We could not help but mentally bow to the man who invents such machinery for the convenience of us thoughtless mortals.

STATE PARKS WILL NOT INCLUDE DIABLO

Senator Sharkey Believes Opportunity Lessening For Improvement

The opportunity to make a great park of Mt. Diablo and to include it in a chain of state recreational grounds under the administration of the State Park Commission appointed by Governor C. C. Young, is rapidly diminishing according to State Senator Will R. Sharkey, of Martinez.

In support of his statement Senator Sharkey points to the recent acquisition by private interests that already have large holdings on the noted peak of additional extensive acreage on the west slope of the mountain.

It is reliably reported, states Senator Sharkey, that certain Southern California interests have cast longing eyes at Mt. Diablo for some time having in mind a huge subdivision project of mountain homesites close in to the eastbay metropolitan area and yet sufficiently removed therefrom to be identified with an alluring mountain region. Mt. Diablo is generally regarded as being ideal in this respect.

It was Senator Sharkey who fathered the Mt. Diablo State Park bill in 1923 when some 800 acres were set aside at the summit as the nucleus of a great mountain park. A bill to carry out the bigger plan was passed by large majorities in both houses of the legislature only to be vetoed by former Governor Friend W. Richardson.

With the inaugural of the Governor Young regime a more comprehensive state parks plan was adopted. The success of this now depends upon the passage of a $6,000,000 bond issue at the next general election. Then, to become available, that sum must be matched by an equal one raised by public subscription. It is understood that many prominent persons in the state and elsewhere in the country are ready to make generous contributions to that fund.

"But as far as Mt. Diablo is concerned," states Senator Sharkey, "it begins to appear that it will have small chance of being included in the proposed state parks system. This is exceedingly unfortunate as Diablo presents one of the most desirable sites in the entire state.

"Traditionally, historically and scenically Mt. Diablo is unique among the noted peaks of the west. It embraces all of the features which make it a natural playground and has the added advantages of being close to a great center of population."

LOCAL HAPPENINGS

Mrs. Mary Dias, patient at the home of Miss Frances Silva, nurse, is reported improving rapidly. She will be able to go home in a week or two.

A WEEKLY CHAT WITH LOVERS OF BOOKS

NEARLY FIFTY NEW BOOKS HAVE BEEN RECEIVED HERE

Approximately fifty new books have been received at the Niles Free Public Library, according to Mrs. Emma Murray, librarian.

Books just received, the name of the author preceding the title, are given as follows:

Asquith—"Octavia."
Barbour—"Adventures of Tom Marvel."
Beard—"Rise of American Civilization" (two volumnes).
Blythe—"Get Rid of that Fat."
Bromfield—"Early Autumn."
Bullen—"Frank Brown, Sea Apprentice."
Cather—"Death Comes to the Archbishop."
Deledda—"Mother."
Dell—"Moon Calf."
Dickens—"Captain Boldheart."
Gibbs—"Age of Reason."
Glaspell—"Brook Evans."
Grierson—Scottish Fairy Book.
Hinkle—"Split Ear."
Hope—"Alice in Delighted States."
Howe—"Later Years of the Saturday Club."
Kipling — "Rudyard Kipling's Verse."
Kyne—"Tide of Empire."
Lewis—"The Man Who Knew Coolidge."
Longfellow—Complete Poems, Cambridge edition.
Ludwig—"Napoleon."
McCutcheon—"Inn of Hawk and Ravin."
Macy—Story of Ward's Literature.
Newbolt—"Submarine and Anti-Submarine."
Oemler—"Sheaves."
Peck—"Shelley, His Life and Works."
(two volumes).
Peto—"China Cow."
Pierson—"Allens and Aunt Hannah."
Powell—"Virginia Queen"
Rath—"Something for Nothing."
Richardson—"Oberland."
Rolvaag—"Giants of the Earth."
Rosman—"Window."
Seaman—"When a Cobbler Ruled the King."
Sharpe—"Lone Star of Carbajal."
Tarkington—"Claire Ambler."
Tennyson—Poetic and Dramatic Works.
Thompson—"Battle of Horizons."
Tuttle—"Morgan Trail."
Wilde—Poems.
Wilder—"Bridge of San Luis Rey."
Wister—"When West was West."

Oriental Dance To Be Given In Centerville

The oriental motif will be carried out in the decorations for the dance to be held September 1 at Parish hall in Centerville.

Mrs. Inez Silva, chairman of the publicity committee, suggests that the women wear coolie coats and carry fans or parasols.

A cedar chest will be given away during the evening.

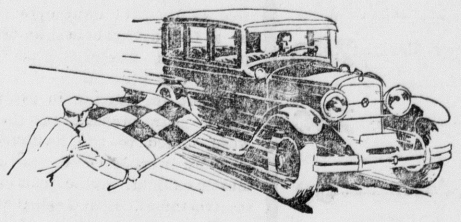
STUDEBAKER
30,000 MILES *in* 26,326 MINUTES
(total elapsed time)



At Atlantic City Speedway, between July 21 and August 9, four regular factory production Studebaker President Eights again proved the supremacy of Studebaker in the automotive world.

Under strict supervision of the American Automobile Association, two President Eight roadsters traveled 30,000 miles in less than 27,000 consecutive minutes—19 days and 18 nights of driving at better than 68 miles per hour! Two President sedans averaged 63.99 and 64.15 miles per hour for the same distance! All four cars were strictly stock—*not* specially prepared nor even selected by Studebaker, but chosen at random from Studebaker's assembly line by A. A. A. officials.

Even before this great achievement, Studebaker held more official speed and stamina records than all other makes of cars combined—The Commander with 25,000 miles in less than 23,000 minutes; The Dictator with 5,000 miles in less than 4800 minutes; and The Erskine Six, holder of 11 official records in its class, 1000 miles in 984 minutes!

Whatever Studebaker-built car you buy, you are assured superlative performance and supreme One-Profit value. See and drive a Studebaker today!

STUDEBAKER'S FOUR NEW LINES

The Erskine . . . . $ 835 to $1045
The Dictator . . . 1185 to 1395
The Commander . $1435 to $1665
The President Eight 1685 to 2485

PRINTING
NEEDS

Two men in a sedan and a farmer and his boy in a smaller car had stopped on a country road for a short discussion of business in general. The farmer and one of the men from town were old friends. The other was unknown to him.

"Give Mr. Hartley one of your cards, Bob," suggested the farmer's friend. "You ought to do some business with him before long."

Now, if Bob had presented his card to Mr. Hartley, there would be little of interest to us in the transaction. But **Bob did not have a card to give him!**

Whatever your business or profession may be, you can't afford to be without a supply of personal cards. Your business is built by making yourself known favorably to a lot of people. When folks need, or consider, something in your line, you want them to think of you. If they have your card the chances are in your favor.

There is no better place in this community to get personal cards—for business, social or campaign use—than right at this newspaper office. Our prices will please you just as much as the cards. Let us prove it. You need them NOW!

PEAR BLIGHT MUST BE CONTROLLED

TREES SHOULD BE SAVED BY CO-OPERATION OF GROWERS, INSPECTION

Pear blight, the most virulent of all orchard diseases has become established in Alameda County. Until this season, no blight has ever been reported in this district. A request from one of the growers to the Horticultural Commissioner's office in June, to determine the cause of a few dying branches among his pear trees, disclosed the fact that blight was present.

Orders for immediate inspection of every pear orchard in the county were issued to the horticultural inspectors who covered the situation, locating blight, giving instructions as to treatment, and seeing that the work was done. Final reports showed that practically every locality in the county was affected. Some orchards were clean. Some showed only a few dead fruit spurs or small branches. And some were badly infected and great portions of the trees had to be cut away.

There are 1500 acres planted to pears in Alameda County; approximately 150,000 trees. The income to our growers from this fruit in 1927 was $655,200.00. It has cost the growers in the Sacramento Valley a hundred dollars an acre annually in labor to fight blight. This does not include the loss of fruit bearing wood that has to be cut away. If the disease develops in this county as in other sections, and there is no denying that it is entirely possible, it would mean a loss to the growers of $150,000.00 annually in labor alone. The loss of fruit by cutting out diseased limbs could reach ten per cent or more, which is equivalent to destroying 15,000 trees or 150 acres. This is another $52,500.00, making the total of $202,500.00 for one year, which is a third of the entire income from this product

The situation is alarming. Some very serious cases have been found where exceptionally heavy cutting had to be done to check the disease. These are indications of what proportions blight can reach. The orchards where only a few limbs or spurs are affected must be rigidly inspected and drastically treated as well as the more serious. Blight can be eradicated in this county if there is immediate thorough co-operation among the growers. This will mean constant patroling of the pear orchards by the growers and inspection of every tree for the rest of the season. At pruning time care must be exercised to cut out all diseased cankers, which hold over and start the disease running again next year.

Treatment consists of cutting well below—a foot at least, where the lowest point of infection can be seen on the bark, and swabbing both the cut surface and the pruning tool after each cut with a solution of bichloride of mercury at a one to one thousand strength. This sterilizes the wound and tool and prevents transmission of the disease from this source. The prunings must be burned.

It is far more efficient to cut out the diseased limbs while the trees are still green. The dead areas are more readily seen and the chance of spreading by infected tools is a great deal lessened.

In addition to the pear, the following fruit trees and ornamentals are subject to blight: Apples, Quince, Medlars, Cotoneasters, Pyracantha, Hawthorns, and Mt. Ash.

(Signed) FRED SEULBERGER
County Horticultural Commissioner.

Roads to Romance

with Jack and Ethyl

Being the original letters of a young wife on her honeymoon over the Pacific Coast to the girl-friend back home.

We have been having a week of surprises as we have driven slowly down the coast from Aberdeen and Hoquiam in the delightful Grays Harbor country to Astoria on the Columbia. It has been a week of surprises pecause there has been so much to see and enjoy that we never dreamed existed along here. Here is a smooth highway through a land where "sea and forest and sandy beach have made a vacation-land supreme" as the guide-books say and yet so few tourists have found it yet that it's almost like visiting an entirely new region.

And here in Astoria we have been thoroughly charmed in visiting places beheld by the white men for the first time way back in the 18th century. It has a romantic history that is fascinating to say the least. The early British and Spanish mariners used to tell tales of a mighty river of the west for which they had searched but failed to find.

Then the British sent out an expedition under Captain Vancouver and his ships found the mouth of the river. He didn't dare enter the river nor was this done until an American, Captain Robert Gray, did it in 1792.

When Jefferson was president, he, being much impressed with the possibilities of the Northwest, sent Lewis and Clark west. They toiled up the eastern slopes of the Rockies, came down the Snake River and gaily floated down the Columbia. In the fall of 1805, they built Fort Clatsop on the site of Astoria's present business district.

From the top of the highest hill here we were able to see all over the countryside which is so steeped with this romantic history. Here is a monument built by Vincent Astor in memory of his ancestor, John Jacob Astor who founded Astoria as a fur trading post in 1811. From the monument's spiral stairway we looked over the tops of the Douglas firs way over the sea, saw the huge fish traps in the Columbia, with the whole city of Astoria at our feet. It's a marvelous view, all the way to Seaside, the inviting beach city on the Pacific.

Come up here and see this country; sure wish you could be here with us.

Love,
ETHYL

P. S.—Can't tell you where we're going next. Jack says we'll be traveling southward. Better call the Associated Oil Company for a forwarding address when you write.

PERSONAL ITEMS

Mr. and Mrs. F. Mitte motored to Fresno last Friday to visit Mrs. Mitte's sister. They returned Monday.

Mr. and Mrs. Ernest Martin entertained friends from Alameda on Sunday. On Monday their club from Oakland were guests at dinner. Last evening Mr. and Mrs. Lester Duffy and Mr. and Mrs. R. Blacow were their dinner guests.

Mrs. A. E. Walpert and her daughter, Jaqueline, were in Oakland last Wednesday to attend the matinee performance of "The Trial of Mary Dugan" at the Twelfth street theater.

Mrs. L. Duffy, Mrs. R. Blacow, and Mrs. N. Wilder spent last Thursday in Oakland, the guests of Mrs. Wilder's niece.

Mrs. Joseph R. Whipple and her niece, Miss Fay Thane, of San Francisco, left this morning for a two weeks' visit in Tuolumne county.
